The Slice of America program encourages participants to think critically about our roles & interactions with local communities. This quarter Dr. Keith Pezzoli will lead discussions focused on urban agriculture and food justice.

Join us on a Slice of America visit to Ocean View Growing Grounds to learn about community development and locally sourced food initiatives that are shaping the evolving landscape of agriculture in San Diego. The OVGG is a dynamic space where residents can grow food and create compost.

We will be celebrating the partnership between the Mountain View Community, The Global ARC and UCSD! Our day of fun will include preparing our own lunch using locally grown ingredients. Come prepared to garden, eat and celebrate!

Saturday
April 4/25
11 a.m. - 2:30 p.m.
Meet at the top of the Pangea Parking Structure at 10 A.M. (Bring $5)
Spaces are limited
Register at tiny.cc/healthyplaces
